

# STANDARD A-FRAMES

## PRODUCT DESCRIPTION

Standard A-Frames are all plastic, and hold two signs – one on the front, and one on the back. The recessed sign area helps to protect sign faces, which can receive vinyl sheeting (with proper surface preparation), metal, Coroplast™, or acrylic sign blanks.

The molded handle at the top allows for easy portability, and the stacking lugs keep units from sliding and damaging when transporting. For extra stability, these A-Frames can be internally ballasted with sand.
