

FILE REQUIREMENTS:

Acceptable File Types: (.PDF) (.EPS) (.TIF) (.AI) (.PSD)

We use current Adobe Software. Microsoft products (CALL US)

Photoshop Users (Raster Images):

Please make sure the dimension of your file is the exact size of the finished size unless instructed otherwise. Photos and graphics need to be no less than 125 ppi at full size. Color mode should be set to CMYK. When complete with your design please FLATTEN all layers then save as .TIFF
*Before sending us your file, view your graphic in Print Size. Go to > VIEW > PRINT SIZE... Review the entire graphic carefully, especially your logo and photos if any, to make sure it looks good to you. Because what you see in the Print Size view is very close to what you get as output.

Illustrator Users (Vector Artwork):

Your raster images (any graphics that are not vector) need to be 125 ppi at full size...(refer to above).

Be sure color mode is set to CMYK. Before sending us your file, select and convert ALL TEXT to outlines... TYPE > CREATE OUTLINES

Whether or not you have extra graphics outside of the finished size area, please draw a No Fill / No Stroke box the same size of the finishing size and create a clipping mask... OBJECT > CLIPPING MASK > MAKE.

Save file as .EPS

InDesign Users:

Please submit all links and fonts. Refer to above when placing graphic elements in your page layout.

UPLOADING FILES: Click the File Upload tab on our website home page and follow the on-screen directions. www.colorwavegraphics.com
